

Simplify & Accelerate Oracle EBS Reporting with Relevance Lab

Is your organization using Oracle EBS and struggling to extract reports from large transactional databases?

Our Hadoop-based solution created by combining our deep Oracle and Hadoop competencies with extensive experience across industries, has helped companies generate critical business reports. Automating & optimizing the processing of huge volumes of data and reducing the report extraction time, we helped improve the quality of reports and visibility for users.

Use Case - A Publishing Major

Backdrop

- Had several products and clocked over billion+ transactions (and growing), on Oracle Fusion Cloud.
- Had implemented Oracle Cloud BI apps to process large volume of transactions.

Challenge

Cost & Quantity reconciliation for each warehouse and item could not be done effectively, as existing reports either timed out or took several days to extract, resulting in lack of visibility for business users.

Solution

Relevance Lab designed a Hadoop-based framework that:

- Automated ingestion and processing of large volumes of data from Oracle Cloud.
- Optimized the process of data ingestion, harmonization, transformation, and processing.
- Users have access to raw data through our platform, SPECTRA data explorer.

Benefits

- On-Hand quantity and Costing reports generated in less than an hour.
- Users have access to multiple reports with near real-time data.
- Our platform allows users to filter, sort, search & download up to 6 million records in 30 seconds.
- Increased productivity by 150 hours per user per quarter.

About Relevance Lab

Having realized millions in business benefits for global organizations, Relevance Lab offers deep analytics prowess to extract the maximum from the silos of data in your company. Our Agile Analytics engagement model combined with Big Data and Machine Learning based platform Spectra will deliver results at a fraction of time compared to traditional methods. Our unique approach of bringing technology and functional expertise together solves vital business challenges and unlocks ROI in the critical areas of Supply Chain and R&D.

Why work with us

- Team of experts with deep competencies
- Proven record of a high degree of efficiency gains and cost savings
- Our client base includes large life sciences companies, retail enterprises, insurance & financial institutions, media and entertainment companies, blockchain/ crypto companies, start-ups, and ISV's.
